

*The PYRO<sup>Evo</sup> is our lightest, most versatile people counter yet. It is 7 times smaller and 5 times lighter than previous versions of the PYRO Box.*

## PYRO<sup>Evo</sup> Pedestrian Counter

### Overview

The system combines a physical counter with a user friendly software to analyse your site, understand trends (such as peak hours and seasonal patterns) and share analyses with partners.

The PYRO<sup>Evo</sup> is the ideal solution to capture people counting trends on footpaths, shared paths, pedestrianised streets, urban trails and more.

### Adaptable solution

The PYRO<sup>Evo</sup> is designed to fit within one of three custom housings blending into the environment to be monitored.

- Pyro Box<sup>Evo</sup>
- Urban Post<sup>Evo</sup>
- Nature Post<sup>Evo</sup>

### Easy to use and install

The PYRO<sup>Evo</sup> is easy to use and requires little maintenance.

The battery powered counter can be left untouched for up to two years, after which time the batteries are easily replaced. In the latest version of this counter, remote upgrades and maintenance are possible, meaning one less trip into the field for you.

Pyro Box<sup>Evo</sup>

Nature Post<sup>Evo</sup>

Urban Post<sup>Evo</sup>

## Configurations for path widths

## Specification

-  **Dimensions** 12.6 x 12.6 x 5.35cm (5" x 5" x 2.10")
